DETAILED ACTION - REJECTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 1 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. As used in claim 1, the phrase "in a manner minimizing" renders the claim indefinite (e.g. *"whereby the primary wire bundle is configured to communicate power to the electrochromic mirror and to the second component in a manner minimizing [emphasis added] the number of electrical connections and connectors necessary during assembly to a mirror housing"*; Claim 1, Lines 11-14). The aforesaid phrase alludes to a method/process which is not defined by the claim, the specification does not provide a standard for ascertaining the requisite degree, and one of ordinary skill in the art would not be reasonably apprised of the scope of the invention.
